EDUCATION

University of Florida

Bachelor of Science in Computer Science

Gainesville, FL

May 2028 | GPA: 3.88

- Relevant Coursework: Data Structures and Algorithms, Computer Architecture, Database Systems
- Minors/Certificates: Statistics Minor, GIS Certificate

TECHNICAL SKILLS

Languages: C++, Python, Java, JavaScript, TypeScript, SQL, PHP

Frameworks: React Native, React, Next.js, Express, Spring Boot

Libraries: pandas, NumPy, Rasterio, GeoPandas, Matplotlib, xarray

Tools/Technologies: Git, Linux, AWS, Firebase, Supabase, MongoDB, MariaDB, Google Cloud Platform

EXPERIENCE

Software Engineering Intern | *Sola Fide Inc.*

Apr. 2026 – Present

- Developed **PHP/MariaDB backend systems** for a global E-commerce platform for **100K+ users**
- Contributed to **Linux-based AWS infrastructure** (EC2, Route 53, S3, CloudFront), improving deployment reliability and supporting high-availability services across 100 countries maintaining **99.9% uptime**
- Deployed ACME-based **SSL/TLS automation** reducing certificate management overhead by 80%

Co-Founder & Full Stack Developer | *FavorIt*

Apr. 2025 – Dec. 2025

- Developed and shipped a multi-service iOS application serving **1K+ users** and **500+ monthly transactions**
- Engineered event-driven **Firebase/Firestore** backend infrastructure for real-time tracking, authentication, and transactional data pipelines, sustaining **99.9% uptime** across **200+** concurrent active sessions
- Led full product lifecycle from MVP architecture to production deployment, managing Agile sprint planning, GitHub code reviews, CI/CD workflows, and feature releases for a 5-person engineering team

Undergraduate Research Assistant | *University of Florida*

Mar. 2025 – Present

- Engineered automated **Python ETL pipelines** using Pandas, NumPy, xarray, and scikit-learn to process and transform **1M+ records** across large-scale environmental and agricultural datasets
- Developed reusable preprocessing and feature-engineering workflows, reducing end-to-end processing time by **87% (8 hrs → 1 hr)** and enabling scalable batch analytics
- Optimized data-processing pipelines through spatial indexing, vectorized operations, caching, and automated validation, accelerating analyses across 4,000+ locations and improving reproducibility across 50+ datasets

Backend Developer - Team Tech | *Society of Women Engineers*

Jan. 2025 – Apr. 2025

- Engineered **Java-based Spring Boot** backend services for a CACI-funded aerospace application, utilizing **Orekit** to perform satellite orbit propagation and trajectory calculations
- Architected **RESTful APIs** and **MongoDB**-backed data pipelines for real-time orbital visualization, reducing frontend computational overhead by 25% and improving system responsiveness
- Delivered a full-stack prototype within a 6-member Agile team over a 10-week development cycle

PROJECTS

Cooked | *React, TypeScript, Express, Supabase, PostgreSQL, Gemini API*

Jan. 2026 – Apr. 2026

- Developed a full-stack meal-planning platform using React, Express, Supabase, and PostgreSQL, supporting pantry management, nutrition tracking, and AI-powered recipe generation
- Implemented secure multi-tenant PostgreSQL schemas with Row-Level Security (RLS) and built REST APIs integrating Gemini and USDA FoodData Central to automate feature workflows

AI Feedback Dashboard | *React, TypeScript, Python, OpenAI API, Supabase*

Apr. 2026 – May 2026

- Built an LLM-powered feedback analytics platform to process unstructured event feedback and generate structured action items, reducing manual review time by an estimated 90%
- Automated processing and classification pipelines for 1,000+ feedback records, enabling dashboard-based data insights for a 26-member leadership team managing 100+ events serving 500+ members annually

INVOLVEMENT

Networking Chair | *Society of Asian Scientists and Engineers*

Apr. 2025 – Present

- Launched professional networking initiatives reaching **1K+ members**, securing 30+ alumni speakers and delivering recurring GBM Alumni Spotlights to audiences of 200+ attendees
- Led 4 committees totaling 40+ members to execute 2 GBMs and 2 semesterly banquets

Outreach Director | *UF Lion Dance Team*

Aug. 2025 – Present

- Served as a founding board member in growing the organization to 800+ followers, securing **\$2,000+** in sponsorships, and establishing partnerships with 20+ businesses, cultural organizations, and university groups
- Coordinated and choreographed 30+ performances for a 20+ member team, performed for 1,500+ attendees
